

ASSIGNMENT NO.4

Question no.1

```
#include<stdio.h>

int main(){

    for(int i=1;i<=5;i++)

        printf("MySirG\n"); }
```

Question no.2

```
#include<stdio.h>

int main(){

    for(int i=1;i<=10;i++)

        printf("%d\n",i);}
```

Question no. 3

```
#include<stdio.h>

int main(){

    for(int i=10;i>=1;i--)

        printf("%d\n",i);

}
```

Question no. 4

```
#include<stdio.h>

int main(){

    for(int i=1;i<=19;i=i+2)

        printf("%d\n",i);

}
```

Question no. 5

```
#include<stdio.h>

int main(){

    for(int i=19;i>=1;i=i-2)

        printf("%d\n",i);

}
```

Question no. 6

```
#include<stdio.h>

int main(){

    for(int i=2;i<=20;i=i+2)

        printf("%d\n",i);

}
```

Question no. 7

```
#include<stdio.h>

int main(){

    for(int i=20;i>=2;i=i-2)

        printf("%d\n",i);

}
```

Question no. 8

```
#include<stdio.h>

int main(){

    for(int i=1;i<=10;i++)

        printf("%d\n",i*i);

}
```

Question no. 9

```
#include<stdio.h>

int main(){

    for(int i=1;i<=10;i++)

        printf("%d\n",i*i*i);

}
```

Question no. 10

```
#include<stdio.h>

int main(){

    for(int i=1;i<=10;i++)

        printf("%d\n",5*i); }
```
